CODE WORD MATERIAL

CONFIDENTIAL

TOP SECRET EIDER**10 January 1957****MEMORANDUM FOR:** [REDACTED]

25X1A9a

FROM : [REDACTED]

25X1A9a

SUBJECT : Request for 2 Copies of NIC Indications List**REFERENCE : Memo #220**

The NIC has not yet drawn up its Indications List for economic developments. At last report (3 January) work on the compilation of such a list was to start about 1 March, but higher priority assignments to NIC personnel may again postpone such work.

Special situation-- [REDACTED]

25X1B0a

25X1B0a

[REDACTED] check lists have been prepared and disseminated by the NIC to those units and agencies involved in either the collection or the processing of particular intelligence involved. A recheck of those available to here does not suggest that any of these would aid Strategic Division.

25X1B0a

Enclosed is one copy of the 1953 OCI Indications Staff check list which is still used by ORR and the Indications Liaison Officer because nothing else is available. If 1957 is as demanding on the NIC staff as was the last half of 1956, a replacement for this list will be a very long time in preparation. Only one copy is enclosed because copies are unavailable except in unit files.
